CAREER OBJECTIVE

Seeking a software engineering position to expand my industry knowledge, contribute to its growth with innovative solutions, and efficiently use code to meet client needs.

DEVELOPED PROJECTS

- Built a web and mobile app for patients of a nutritional clinic. Adding the functionality to save data from multiple users via Firebase and allowing users to visualize their health metrics.
- Designed and developed a mobile social network in Android Native to create, share and publish famous or own phrases and quotes, published in Play Store.
- Facilitated patient management of a veterinary clinic through a web platform using React and Node.
- Used historical data to develop a process cycle time forecasting model using artificial neural networks and Python, achieving 90% accuracy.
- Developed a university FAQ chatbot using ML and NLP techniques, along with a Multinomial Naive Bayes classifier for intent detection.

EXPERIENCE

Research Assistant (PROVERICyT XXV) | *Universidad Autónoma de Nuevo León* *(July 2023)*

- *Collaborated on a research project exploring parallel programming techniques in the context of search algorithms.*
- *Provided alternatives to diversify search algorithms, enhancing its efficiency and effectiveness.*

EDUCATION

Ingeniería en Tecnologías de Software | *Universidad Autónoma de Nuevo León* *(July 2019 – July 2024)*

CERTIFICATIONS

CyberOps Associate | *Cisco Networking Academy* *(March 2023)*

CCNAv7: Introduction to Networks | *Cisco Networking Academy* *(June 2021)*

Python Summer Coding Camp | *Microsoft Learn Student Ambassadors* *(July 2020)*

CEFR Nivel B2 | *Cambridge Assessment English* *(July 2019)*

TECHNICAL TOOLS

- Languages: JavaScript, Kotlin, Python
- Libraries/Frameworks: React, Express, Pandas
- Databases: MongoDB, MySQL, PostgreSQL
- Mobile Development: Android Compose, Firebase
- Version Control: Git, GitHub
- Other: Microsoft Office

SKILLS

- Adaptability for teamwork.
- Creative thinking & versatility.
- Capacity for analysis and problem-solving.
- Self-taught
